Making AI simple for small business owners just like you.

by small-ai

Why a Simple Chatbot?

Always Available

Provides instant support 24/7, even when you're busy.

Saves You Time

Handles frequently asked questions, freeing you up for more important tasks.

Improves Customer Experience

Offers quick answers and guidance when customers need help.

Easy to Get Started

Tools designed for non-technical users with no coding required.

Your 10-Minute Chatbot Toolkit

Tidio

Offers a free plan with live chat and basic chatbot automation. Easy to integrate with most websites.

Landbot

Provides a visual, no-code chatbot builder with a free tier suitable for simple chatbots.

No Coding Required

These user-friendly platforms offer free basic chatbot functionality with simple setup.

Setting Up Your Chatbot: First Steps

Sign Up (2 Minutes)

Go to your chosen platform. Create a free account with your email and password.

Connect to Website (3 Minutes)

Copy the provided code snippet. Paste it into your website settings.

Create First Flow (4 Minutes)

Design what your chatbot will say using the visual builder.

Test Your Chatbot (1 Minute)

Use the preview option to ensure everything works correctly.

Creating Your First Simple Flow

Trigger

When a visitor lands on your website or a specific page.

Chatbot Message

"Hi there! Welcome to [Your Business]. How can I help you today?"

Quick Reply Buttons

Offer common options like "Hours," "Location," or "Contact us."

Action Based on Click

Set up pre-written answers or direct to specific website pages.

Next Steps & Keeping It Simple

Start With Basics

Focus on addressing the most common customer questions first.

Expand Gradually

Add more specific questions and information collection features.

Add Human Handoff

Set up routing for complex inquiries to a human agent.

Real Benefits for Your Business

24/7 Availability

Serve customers even outside business hours.

Increased Efficiency

Handle multiple customer inquiries simultaneously.

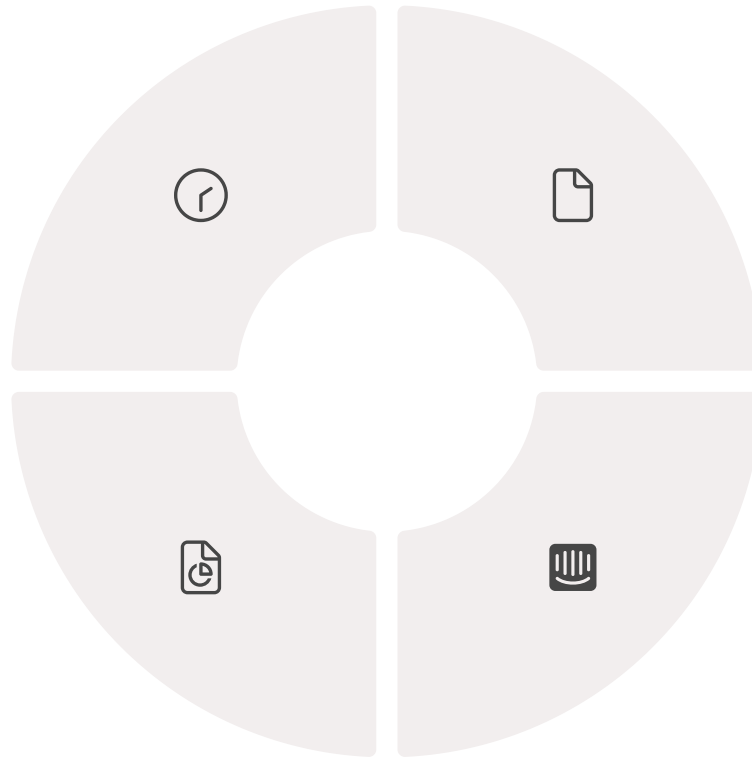

Business Insights

Learn what questions customers ask most frequently.

Better Customer Experience

Provide instant responses to common questions.
